Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    \overset{\sim}{\circ}
CD40 receptor-associated factor 1 - mouse
C.Species: Mus musculus (house mouse)
C.Species: Mus musculus (house mouse)
C.Species: Mus musculus (house mouse)
C.Accesaion: 199272
R.Cheng, G.; Cleary, A.M.; Ye, Z.S.; Hong, D.I.; Lederman, S.; Baltimore, D. Science 267, 1494-1498, 1995
A.Title: Involvement of CRAFI, a relative of TRAF, in CD40 signaling.
A.Tatle: Involvement of CRAFI, a relative of TRAF, in CD40 signaling.
A.Reference number: A55960; MUID:95184010; PMID:7533327
A.Status: Preliminary
A.Molecule type: mRNA
A.Residues: 1-567 «RES>
A.Cross-references: UNIPROT:Q60803; EMBL:U21050; NID:g719292; PIDN:AAC52175.1; PID:g7192
C.Genetics:
A.Gene: CRAFI
C.Superfamily: TNF receptor-associated factor (TRAF); RING finger homology
C.Reywords: zinc finger
F;48-96/Domain: RING finger homology «RNG»

A Jenkins N.A., Lacy E.;

"A candidate gene for the amnionless gastrulation stage mouse mutation

"A candidate gene for the amnionless gastrulation stage mouse mutation

"A candidate gene for the amnionless gastrulation stage mouse mutation

"E candidate gene for the amnionless gastrulation stage mouse mutation

"E code a TRAF-related protein and signal transducer that links members

"C of the tumor necrosis factor receptor family to different

signaling pathways by association with the receptor cytoplasmic

domain and kinases. Seems to be involved in activation of NF-

kappa-a and JNK and in apoptosis. Is regulated by TANK/ITRAF which

competes with TNRRSFS/CD40 for binding. Seems to play a role T-

cell dependent immune responses (By similarity).

"Similarity). Binds to TNRRSFS/CD40. Associates with LTBR/NTRRSF3,

TNFRSF4, TNRRSF8/CD30, TNFRSF17/BCMA and EDAR, MAP3K5, MAP3K14,

and TRAF-interacting protein TRIP and TRAF and TNF receptor

associated protein TTRAP. Binds to TANK/ITRAF (By similarity).

"ITSSUE SPECIFICITY: In adult, highest in brain. Also found in

kidney, heart, thymus, spleen, lung, muscle, testis and ovary. Not
